

1. Hero / First screen

The ERP that simplifies the management of residential communities, condominiums, and buildings

FRACTAE is an integrated system that centralizes communication, access, finances, reports, and incidents in one single platform.

Leave Excel, WhatsApp, and paper behind.

3. “Without FRACTAE / With FRACTAE” Section

Managing a community should not depend on scattered messages, lost files, and manual reports.

Left column: Without FRACTAE

1. Manual and scattered processes

WhatsApp, Excel, paper, and phone calls create duplicate information, errors, and lack of follow-up.

2. Hard-to-control collections

Late payments, manual reconciliations, and limited financial visibility.

3. Disorganized communication

Lost announcements, repeated complaints, and residents without clear information.

4. Reactive operation

The administrator finds out late, responds late, and documents very little.

5. Access without full traceability

Visitors, providers, and residents enter without a reliable operational record.

Right column: With FRACTAE

1. Everything centralized in one system

Access, payments, communication, reports, and incidents from a single platform.

2. Real-time financial control

Check collections, outstanding balances, payments, and reports without relying on manual files.

3. Clear and segmented communication

Send announcements to residents, committees, or specific groups without operational noise.

4. Management based on data, not assumptions

Dashboards and reports to make decisions with updated information.

5. Secure and traceable access

Complete record of entries and exits, visitors, providers, and authorizations.

4. Features / Sticky scroll

Feature 1 — Access

Badge

Access

Title

Every entry, perfectly registered

Text

Control resident, visitor, provider, and authorized personnel access with clear, traceable, and searchable records.

Bullets

Digital invitations and authorizations
Entry and exit history with identification
Records by resident, visitor, or provider

Feature 2 — Finances

Badge

Finances

Title

Clear, visible, and organized collections

Text

Check payments, outstanding balances, and collection progress without depending on spreadsheets or endless reconciliations.

Bullets

Account statement by resident
Follow-up on pending payments
Financial reports for administration and committee

Feature 3 — Communication

Badge

Communication

Title

A formal channel for the entire community

Text

Prevent important announcements from getting lost in chats. Centralize communications, documents, and relevant messages.

Bullets

General or segmented announcements
Documents and regulations available
Communication between administration, committee, and residents

Feature 4 — Incidents and reports

Badge

Reports

Title

Every request with real follow-up

Text

Turn complaints, reports, and incidents into tickets with an owner, status, evidence, and service date.

Bullets

Report with photo and description
Follow-up status
History by house, area, or category

Feature 5 — Reservations

Badge

Reservations

Title

Amenities organized without conflicts

Text

Manage reservations for event rooms, courts, terraces, or common areas with clear rules and visible availability.

Bullets

Availability calendar
Digital confirmations and payments
Rules by amenity or resident type

Feature 6 — Consultations and voting

Badge

Community participation

Title

Turn opinions into formal decisions

Text

Consult residents, measure opinions, and run binding votes under previously defined rules, with clear results and accessible evidence.

Bullets

Digital surveys, consultations, and voting
Registered participation and transparent results
Documentary support for committee or assembly decisions

5. Benefits

Transform your community's daily management

Benefit 1

Less administrative workload

Automate repetitive tasks and stop depending on scattered files.

Benefit 2

Greater transparency for the committee

Check reports, payments, incidents, and operational activity from one place.

Benefit 3

Better-informed residents

Centralize announcements, account statements, documents, and requests.

Benefit 4

Data-based decisions

Measure collections, incidents, access, and operations with clear reports.

Benefit 5

Complete follow-up

Every request, payment, or access record is stored with a searchable history.

Benefit 6

An operation ready to scale

Ideal for small, medium, or large communities with multiple operational needs.

Flexible modules

Implementation support

7. FAQ

Is FRACTAE for residential communities or also for condominiums?

FRACTAE is designed for residential communities such as gated communities, horizontal condominiums, residential towers, private communities, and developments with centralized administration.

Do I need to install new hardware to use FRACTAE?

Not necessarily. FRACTAE can start with administrative and digital modules. Access, security, or hardware integrations can be evaluated with us based on each community's infrastructure or needs.

What modules does the platform include?

FRACTAE can include access, finances, communication, consultations and voting, reports, incidents, amenity reservations, security, and administrative dashboards.

Do residents also use the platform?

Yes. FRACTAE includes an iOS and Android app so residents can check information, receive announcements, submit requests, review payments, or generate access passes, depending on the contracted modules.

How long does implementation take?

It depends on the size of the community and the selected modules. During the demo, we can estimate an implementation roadmap by stages.

Does FRACTAE replace WhatsApp and Excel?

It does not force you to eliminate them immediately, but it does reduce dependency on them by centralizing formal processes, operational information, and reports in one platform.

How do I request a demo?

Complete the contact form and the FRACTAE team will get back to you to understand your community's needs and show you the platform.

8. Contact

Schedule a demo for your community and we will reply in less than 24 hours.

Tell us how your community operates and we will show you how FRACTAE can help centralize access, payments, communication, and reports.
